RE: "IG" – Special Temporary Authority (STA) application

Dear FCC Processor:

This STA is necessary for a short term private event that is not a permanent location. Central MA Public Safety Assn Inc provides on-site two-way radio communication services, Incident Command System (ICS) services & trained staffing, two-way radio dispatch services and additional non-profit charitable volunteer services for this annual private event.

Some, if not most of the frequencies on this application, are already licensed to us under call signs WPUL718 & WQKZ730. We will also be utilizing additional frequencies (separate from these) specifically from call sign WPUL718 > Location 2 > "Itinerant: Statewide: RI" and WPUL718 > Location 4(Temporary Fixed) & Location5(Mobile) for the event.

The event, "Providence Cyclo-cross Festival", will be held from Friday, October 4 through Sunday, October 6, 2013 and utilizing 325 hand-help portable two-way radios.

We respectfully ask the FCC to assign this application:

Grant Date: (whenever you approve this STA & print the license)

Effective Date: Wed, 10 / 02 / 2013

Expiration Date: Wed, 10 / 09 / 2013

This allows us to install the radio system in advance of the event dates so they can utilize a radio system for "event set up" and "event tear down".

Respectfully Submitted,

STEPHEN V. GOODWIN
